POND & GARDEN FILTRATION SOLUTIONS

## DISCOVER HOW WE CAN HELP WITH OUR **FILTRATION GUIDE**

A GARDEN POND IS A TRULY WONDERFUL FEATURE TO HAVE. TO ENSURE TROUBLE-FREE YEAR ROUND ENJOYMENT OF YOUR POND IT IS ESSENTIAL THAT YOU MAINTAIN ALL FEATURES AND FIXTURES.

Whether you are a beginner or an experienced water gardener, you will probably have one objective and that is a clear, clean healthy pond.

Ponds will be effected by various factors, such as unconsumed fish food, decomposing vegetation, and fish excrement. If these pollutants are allowed to accumulate they will become harmful to your fish and produce green unsightly water.

The use of biological filtration will remove these toxins (nitrate & ammonia) and provide good quality water. Filters for ponds usually combine both biological and mechanical filtration. Mechanical filtration removes the solid particles in the water. Biological filtration is the converting of toxic pollutants in the water, which is achieved by the bacteria living in the bio media.

### THE MOST IMPORTANT POINTS FOR FILTRATION

- **EQUIPMENT & MATERIALS OF A CAPABLE SIZE**

Filter sizing is based on the pond volume calculations and fish stocking densities. Always go bigger to get better results.

- **CORRECT EQUIPMENT**

Remember when making your selection that if your pond volume is close to the maximum capacity of the filter in mind then we suggest you choose the next model up. If unsure always up-size. Look for filtration with product and clear water guarantees.

- **COMPLETELY CIRCULATING WATER**

All the pond water needs to pass through the biofilter. The pump needs to be at one end and the inlet at the other.

- **CONTINUOUS FILTRATION**

Pond filtration needs to run 24 hours a day. Bacteria in the biological filter will die if it is without water and oxygen, even for short periods of time. Bacteria takes 4-6 weeks to fully establish.

- **DON'T OVERSTOCK POND**

Over stocking of fish will strain the pond filtration system. Ideal stocking levels = 50cm of fish per 1,000 litres. Remember to allow for the fish to grow.

- **USE WATER PLANTS**

Water plants are vital in maintaining the balance in the ponds eco system. Plants remove nitrates, provide shade and oxygen. If not in your pond try to use water plants in a stream or spillway.

- **DON'T OVER FEED FISH**

Pond fish cannot eat a great quantity of food at one time therefore little and often must be the rule. Overfeeding increases the danger of polluting the pond. Remember fish will consume less food in colder months.

- **REMOVE/RESTRICT POLLUTANTS & DEBRIS**

Leaves, debris and fertiliser allowed to enter the pond will all breakdown into ammonia, which is toxic to live stock. Remember to remove pollutants and/or use a pond net to cover the pond.

# Pond Care

## All year round maintenance guide

A GARDEN POND IS A TRULY WONDERFUL FEATURE TO HAVE. TO ENSURE TROUBLE-FREE YEAR ROUND ENJOYMENT OF YOUR POND IT IS ESSENTIAL THAT YOU MAINTAIN ALL FEATURES AND FIXTURES.

**But, how do you truly care for your garden pond in order to ensure a long time of enjoyment from it? Here are some great tips that will tell you how to do just that.**

### SPRING

- Kick-start your pond early to avoid problems.
- Test the water with a pond test kit to make sure it is healthy.
- Kick start essential biological cycles by using bacteria.
- Feed fish easy to digest pond food to rebuild energy stores.
- Eliminate algae problems by using either a pond UV or pond treatment.

### SUMMER

- Feed plants with pond tablets to keep them at their best.
- Feed fish with quality nutritional balanced food.
- Check water quality every two weeks.
- Control any algae problems.
- Prevent de-oxygenation by using an air pump.

### AUTUMN

- Prepare the pond for it's winter dormancy.
- Cut back/remove dying plant matter.
- Net the pond to prevent leaves polluting pond.
- Change half the water and remove pond sludge.
- Prepare fish for winter and feed with quality fish food.

### WINTER

- Remove all debris from your pond.
- Cut-off surface growth of underwater plants.
- Bring surface aquatic plants indoors.
- Reduce and eventually stop feeding pond fish.
- Ensure that your Pond is deep enough.

# What is **Filtration**?

WHETHER YOU ARE A BEGINNER OR EXPERIENCED WATER GARDENER, YOU WILL PROBABLY HAVE ONE OBJECTIVE AND THAT IS A CLEAR, CLEAN HEALTHY POND.

## SELECTING YOUR POND FILTRATION SYSTEM

### PRESSURISED BIOLOGICAL FILTERS

Pressurised biofilters use the same mechanical and biological technology but have the advantage of being fully sealed.

This means the filter can be placed above or below the water level and can be put inline between the pump and waterfeature.

### EXTERNAL BIOLOGICAL FILTERS

External biological filters come in all shapes, sizes and configurations but all function in similar ways. All incorporate mechanical filtration to remove solid particles from the water and then biologically filter through bacteria in biomed. External biofilters are gravity fed.

This means the water is pumped into the box and trickles through the filter and flows out under gravity. Consequently the filters must be set at the highest point in the circuit i.e. above the waterfall, which results in the outlet from the filter being elevated above the water surface of the pond/waterfall.

### UV CLARIFIERS/STERILISERS

UV (ultraviolet) clarifiers can clear a green pea soup pond in a very short space of time. UV clarifiers use ultra violet radiation from the lamp to kill the suspended algae making the algae cells clump together so that these dead algae can be mechanically filtered.

When UV clarification is used in combination with a biofilter UV lamps inside the unit have to be replaced after about 8000 to 12000 hours of running (approx 12-18 months). Most pond keepers try to control algae by using chemicals. This can be an expensive and laborious solution that may have detrimental side effects on fish and plant life.

# Nitrogen Cycle

IN ALL PONDS WITH FISH YOU NEED A FILTER, WHICH ACCELERATES THE NITROGEN CYCLE AND ACTS LIKE A MINI 'SEWAGE TREATMENT PLANT'.

The cycle takes approximately 4-6 weeks to fully mature with continuous 24hr water circulation.

It is essential the pump is not turned off as the good bacteria will die quickly and the cycle will be broken.

STEP 4

Plants can then use the Nitrate as a food source.

STEP 1

Fish waste & rotting plant matter turns to toxic Ammonia.

STEP 3

A different type of Beneficial Bacteria further converts Nitrite into Nitrate.

STEP 2

Beneficial Bacteria living inside Bio-Media (ie. Pressure Filters) converts the harmful Ammonia into Nitrite.

A traditional Japanese garden pond featuring a wooden water wheel, a stone waterfall, and several koi fish swimming in the water. The scene is surrounded by lush greenery and bamboo. The text is overlaid on the left side of the image.

YOU **CANNOT** OVER FILTER  
YOUR POND AND SO **BIGGER**  
**IS BEST** WHEN IT COMES TO  
BIOLOGICAL FILTERS.

# Complete Bio-systems

COMBINING THE BEST! COMPLETE PUMP AND FILTER SYSTEMS THAT OFFER THE PERFECT SOLUTION FOR ANY POND.

## PRESSURE FILTER/UV CLARIFIER

High efficiency pressurized pond filter system with integrated UV-C using modern technology and user friendly design. These units boast crystal clear water.

### FEATURES

- INTERNAL DOUBLE ACTION BIOLOGICAL SPONGES
- LOW MAINTENANCE BACKWASH RINSING SYSTEM
- CAN BE USED IN-LINE FOR WATERFALLS & WATERFEATURES

## FILTRATION / WATERFALL PUMP

These pumps will deliver high performance needs for filter systems and spectacular waterfalls, with low power consumption. Can be positioned vertically & horizontally. New cage design allows up to 6mm particles to pass.

### FEATURES

- TOOL-LESS ASSEMBLY
- ENERGY EFFICIENT

Bio Super Media

Dual Action Biosponges

Unique Backwash Function

IT'S **IMPORTANT** THAT YOUR  
BIOLOGICAL FILTER MUST  
RUN FOR **TWENTY FOUR**  
**HOURS** EVERY DAY

A photograph of a pond with a waterfall. The waterfall is on the left side, cascading over dark, mossy rocks. The water is clear and creates white foam at the base. On the right side, there are tall, green, blade-like plants, possibly irises, growing out of the water. The background consists of more rocks and some greenery. The overall scene is serene and natural.

PONDS ADD A TOUCH OF **SERENITY** AND **ELEGANCE** TO ALMOST ANY SETTING, BUT IN ORDER TO **MAINTAIN** THEIR BEAUTY, **PROPER FILTRATION IS ESSENTIAL.**

# All in One Complete Pond Filter System

THIS COMPACT SUBMERSIBLE FILTER REQUIRES NO COMPLICATED PLUMBING FOR DRAMATICALLY SIMPLE FILTER INSTALLATION.

Built-in UV clarifier enhances pond water clarity by combating green water algae for beautiful, crystal clear water.

## FEATURES

- MAKES GREEN WATER CLEAN
- BUILT-IN UV CLARIFIER
- COMPLETE POND SOLUTION WITH MULTIPLE FOUNTAIN FEATURES

## INCLUDED IN UNIT

1. PUMP & UV-CLARIFIER UNIT
2. FILTER MEDIA BOXES
3. ADVANCED FILTER MEDIA
4. BIO-SPONGE

UV Indicator Window

Multi Use Fountain

# UV Clarifiers

PONDMAX UV CLARIFIERS WILL PROVIDE MAXIMUM CLARITY AND ENSURE HEALTHY CONDITIONS IN YOUR POND OR AQUARIUM.

Water passes through the UVC and is exposed to the ultra violet light which destroys algae and bacteria, achieving crystal clear water within 14 days. Use with biological filter. Features a safety shut-off switch for globe replacement.

### FEATURES

- SAFETY SHUT-OFF SWITCH
- 2 YEAR GUARANTEE

PU09W

# Prefilter Sponges

SPONGE PREFILTERS PROVIDE MORE SURFACE AREA FOR BENEFICIAL BACTERIA TO GROW AND EXTEND THE LIFE OF YOUR PUMP BY REDUCING WEAR AND TEAR.

Dual-end Core (F11 Only)

Code	Description	Filter Size (mm)	Intake Size (mm)
03PF100	PondMAX Prefilter Sponge - F3	150 x 100 x 100	15
03PF103	PondMAX Prefilter Sponge - F11	300 x 120 x 120	15/25

# Max Air Aeration Pumps

AERATION PUMPS ARE GREAT FOR AERATING LARGER AREAS OF WATER SUCH AS DAMS OR LAKES, PUMPING TO A DEPTH OF 5M AND ARE SUITABLE FOR USE OUTSIDE.

## FEATURES

- ROBUST DESIGN
- 1 YEAR GUARANTEE
- AERATION KIT INCLUDES AIRLINE AND AIRSTONES

Code	Description	Power (W)	Flow (L/min)	Cable Length (m)
03PA304	PondMAX PA10 Aeration Pump Kit	10	10	2
03PA305	PondMAX PA20 Aeration Pump Kit	15	20	2
03PA302	PondMAX Max Air PA40 Aeration Pump	36	40	1.8
03PA303	PondMAX Max Air PA80 Aeration Pump	83	80	1.8

# Pond Vacuum

THE PV350L POND VACUUM IS AN IDEAL TOOL FOR GENERAL MAINTENANCE ON YOUR POND OR WATERFEATURE. WITH A LARGE 35L CANISTER CAPACITY, CLEANING YOUR POND IS A BREEZE.

The PV350L has 2 modes; one is a manual on or off and the other is an auto mode which automatically turns off after 50 seconds of vacuuming to allow the water to drain from the canister for 50 seconds before starting up again.

## FEATURES

- IDEAL FOR EVERY POND KEEPER
- 2 YEAR GUARANTEE
- CAN BE USED WET AND DRY
- AUTOMATIC DRAIN & FILL CYCLE

Code	Description	Power (W)	Flow (L/hr)	Cable Length (m)
030V224	PondMAX PV350L Pond Vacuum	1400	3000	10

Check out our  
'How to Guide'

YouTube

# Pro Pond Vacuum

The PondMAX pond vacuum for the professional, complete with an aluminium extendable handle and anti-kink discharge pipe. Removes Pond sludge & debris. Ideal for use after treatment to remove dead algae.

Code	Description	Ext. Handle (m)	Discharge Tube (mm)	Discharge Tube Length (m)
030V244	PondMAX Pro Pond Vacuum	1.1	19	3

# Pond Treatments

PONDMAX TREATMENT PRODUCTS CAN HELP PONDS ACHIEVE A HEALTHIER ENVIRONMENT WHILE ALSO IMPROVING THE AESTHETICS THROUGH CLEANER CLEARER POND WATER.

## String Algae Treatment Powder

Naturally clears Blanket Weed (String Algae) in your pond. Contains unique natural plant extracts & bacteria. Safe for all pondlife and harmless to aquatic plants.

### FEATURES

- NATURALLY CLEARS BLANKET WEED (STRING-ALGAE)
- CONTAINS UNIQUE NATURAL PLANT EXTRACTS
- HIGHLY CONCENTRATED POWDER BLEND

Code	Description	Treats (L)
03PS239	PondMAX String Algae Treatment Powder 22.5g	6,250
03PS240	PondMAX String Algae Treatment Powder 93.75g	25,000

## Pond 3 in 1 Solution

A universal all in one treatment that clears green water plus String Algae and also consumes pond sludge.

### FEATURES

- SAFE FOR FISH, PLANTS & WILDLIFE
- TRANSFORMS YOUR POND TO CRYSTAL CLEAR
- TREATS BLANKETWEED, GREENWATER & POND SLUDGE

Code	Description	Treats (L)
03PO505	PondMAX 3 in 1 Pond Solution 500ml	12,500
03PO506	PondMAX 3 in 1 Pond Solution 5L	125,000

## Pond Clarifier Bacteria

PondMAX Pond Clarifier Bacteria as a concentrated powder blend is highly effective at reducing Ammonia, Nitrates, Phosphates and Hydrocarbons.

### FEATURES

- 100% HARMLESS, 100% CHEMICAL FREE
- RECHARGES FILTER AND HALVES MATURATION TIME
- RAPIDLY CONSUMES POND SLUDGE

Code	Description	Treats (L)
03PC245	PondMAX Pond Clarifier Bacteria 22.5g	8,000
03PC246	PondMAX Pond Clarifier Bacteria 85g	30,000
03PC247	PondMAX Pond Clarifier Bacteria 337.5g	225,000
03PC248	PondMAX Pond Clarifier Bacteria 750g	500,000

## Pond Water Treatment & Conditioner

High quality dechlorinator with added Aloe Vera, PVP's and Vitamin B to keep your fish healthy.

### FEATURES

- NEUTRALISES AMMONIA
- REMOVES CHLORINE & CHLORAMINE
- DETOXIFIES HARMFUL HEAVY METALS

Code	Description	Treats (L)
03PW507	PondMAX Pond Water Treatment & Conditioner 500ml	6,000
03PW508	PondMAX Pond Water Treatment & Conditioner 2.5L	30,000
03PW509	PondMAX Pond Water Treatment & Conditioner 5L	60,000

# Complete Water Treatment

THIS REVOLUTIONARY NEW TREATMENT WILL CLEAR YOUR POND OF SUSPENDED ALGAE, BLANKET WEED AND ORGANIC SLUDGE.

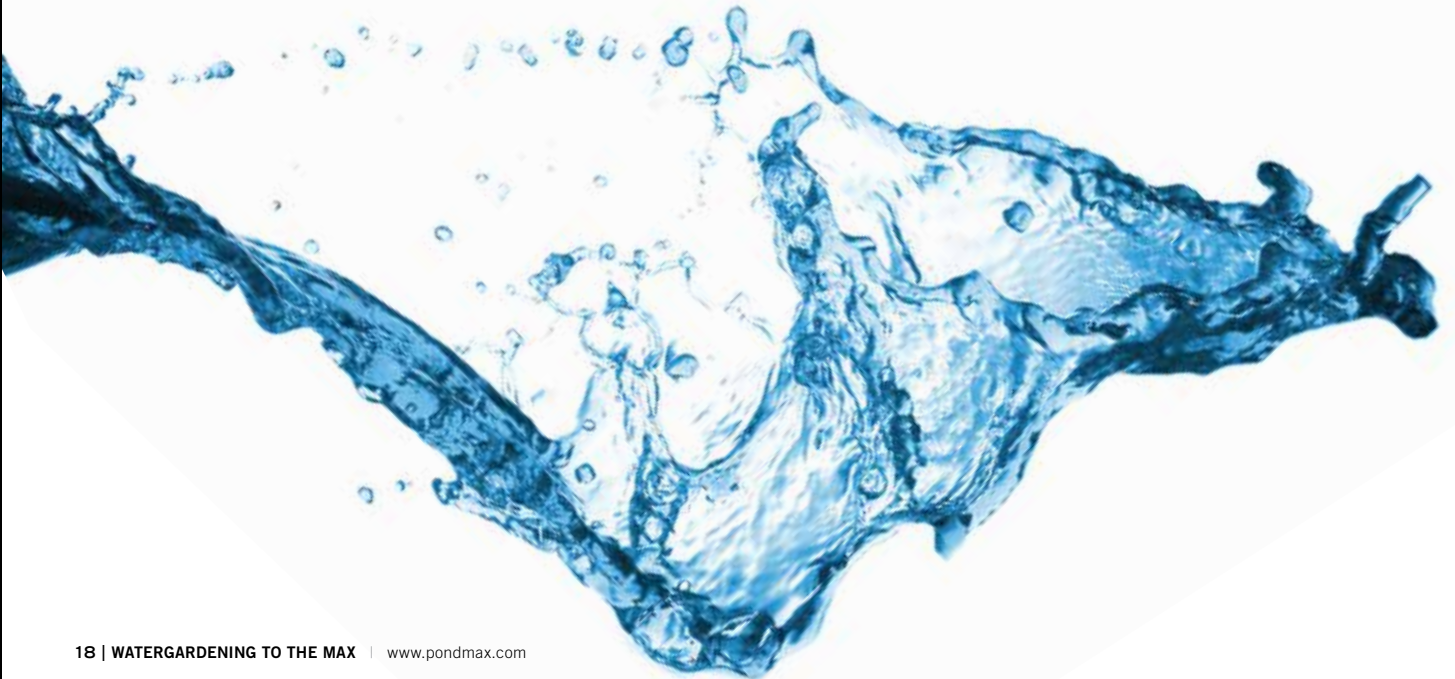

Clear your pond of suspended algae, blanket weed and organic sludge with these easy to use sachets. Containing powerful enzymes, this is the easiest solution for your pond. Now you can have clean, clear and healthy water just by throwing a sachet into your pond every fortnight.

## FEATURES

- NATURALLY CLEARS ALL TYPES OF ALGAE & SLUDGE
- CONCENTRATED FORMULA
- CONTAINS BILLIONS OF BENEFICIAL BACTERIA
- 6 EASY TO USE SACHETS

Code	Description	Treats (L)
03PC310	PondMAX Complete Water Treatment 90g (6 x 15g)	15,000

EASY TO USE SACHETS

POND TREATMENTS CAN HELP PONDS  
**ACHIEVE** A **HEALTHIER** ENVIRONMENT  
WHILE ALSO **IMPROVING** THE  
AESTHETICS OF A **CLEARER** POND.

TO ENSURE **TROUBLE-FREE** YEAR  
ROUND ENJOYMENT OF YOUR POND IT  
IS **ESSENTIAL** THAT YOU **MAINTAIN**  
ALL **FEATURES** AND **FIXTURES**.

# Pond & Fish Treatments

DEVELOPED WITH OUR TEAM IN THE USA, THE PONDMAX RANGE OF POND & FISH TREATMENTS OFFER HIGH QUALITY AND SUPERIOR SOLUTIONS FOR YOUR POND AND FISH NEEDS.

## POND TREATMENTS

Ponds are living breathing environments full of complex life forms that can all exist together in a well balanced ecosystem. Pond treatment products can help ponds achieve a healthier environment while also improving the aesthetics through cleaner clearer pond water.

### TREATMENTS INCLUDE:

<b>BarleyMAX</b>	Cleans & Polishes Flowing Ponds
<b>StatuMAX</b>	Cleans Statues, Bubblers and Disappearing Waterfalls
<b>ScaleMAX</b>	Deep Cleans Basin Pit, Cracks & Crevices
<b>BuffMAX</b>	Stabilises Pond Water pH
<b>pHMAX</b>	Lowers pH Levels
<b>CleanMAX+</b>	Cleans Waterfalls, Plant Pots & Streams
<b>BactiMAX+</b>	Removes Ammonia Nitrate
<b>CleanMAX</b>	Removes Debris, Adds Oxygen & Cleans
<b>DetoxMAX+</b>	Removes Chlorine
<b>ClearMAX</b>	Clears Cloudy Water
<b>NatureMAX</b>	Multi Purpose Cleaner

## FISH TREATMENTS

There are literally hundreds of afflictions that can affect the health of your fish. The most common maladies seen in home aquaria are usually either bacterial or parasitic in origin. Fungal infections are also sometimes seen, and occasionally physical ailments.

### TREATMENTS INCLUDE:

<b>SaltMAX</b>	Electrolyte Intake
<b>MediMAX</b>	Control Gill Disease
<b>ParaMAX</b>	Control Ick, Parasites, Protozoa, Bacteria & Fungi

### POND CALCULATION:

To ensure you are not over-treating your pond and ensuring you are using the optimum amount of treatments you can calculate the volume of your pond using the simple calculation. Always read the instructions on all treatments before using.

**POND SIZE CALCULATION: L X W X AVG. DEPTH X 1,000 = LITRES**

**POND SIZE CALCULATION: L X W X AVG. DEPTH X 7.5 = GALLONS**

# Pond Treatments

MADE IN USA, THE PONDMAX RANGE OF POND TREATMENTS OFFER HIGH QUALITY AND SUPERIOR PERFORMANCE SOLUTIONS FOR YOUR POND. THE RANGE COVERS EVERY ASPECT OF POND PROBLEMS.

## BarleyMAX

When placed in an area of steady water flow BarleyMAX will slowly degrade and emit a natural chemical that cleans and polishes pond water naturally.

Code	Description	Treats (L)
03PT085	PondMAX BarleyMAX 900g	Up to 7,500

## ScaleMAX

ScaleMAX will deep clean basin pits, cracks and crevices to ensure a new appearance all year round. ScaleMAX will also help to prolong the life of fountain pumps.

Code	Description	Treats (L)
03PT151	PondMAX ScaleMAX Limescale Remover 236ml	Up to 303

## pHMAX

pHMAX fuses pH lowering qualities with natural electrolytic supplements to safely lower pH levels in pond water at no more than 0.2 points per application.

Code	Description	Treats (L)
03PT053	PondMAX pHMAX 900g	Up to 121,000

## StatuMAX

StatuMAX fountain cleaner is a revolutionary product designed specifically to keep fountains, bubblers and disappearing waterfall features clean and clear all year long.

Code	Description	Treats (L)
03PT141	PondMAX StatuMAX Fountain Cleaner 236ml	Up to 303

## BuffMAX

BuffMAX will stabilise pond water pH and maintain buffering capacity at safe levels. BuffMAX will help prevent wide pH swings which are typical from morning to night.

Code	Description	Treats (L)
03PT061	PondMAX BuffMAX 900g	Up to 30,400

## CleanMAX+

CleanMAX+ cleans in seconds of application to remove debris, add oxygen and clean the pond from top to bottom. Use CleanMAX+ on waterfalls, plant pots & streams.

Code	Description	Treats (L)
03PT011	PondMAX CleanMAX+ 470ml	Up to 36,340
03PT024	PondMAX CleanMAX 4.5kg Dry	Up to 290,560

## BactiMAX+

BactiMAX+ will remove ammonia, nitrite, nitrate, and organic debris (dead leaves, uneaten fish food, fish waste, etc.) Use BActiMAX+ year-round, even in the winter to keep your pond crystal clear.

Code	Description	Treats (L)
03PT043	PondMAX BactiMAX+ 940ml	Up to 241,920

## DetoxMAX+

DetoxMAX+ will immediately remove chlorine, chloramine and heavy metals that are often present in city water supplies.

Code	Description	Treats (L)
03PT081	PondMAX DetoxMAX+ 236ml	Up to 6,050
03PT082	PondMAX DetoxMAX+ 470ml	Up to 12,100

## NatureMAX

NatureMAX's multi-purpose cleaning action cleans ponds with barley, bacteria, enzymes and a powerful secret ingredient. These substances clean, polish and break down problematic organic materials.

Code	Description	Treats (L)
03PT032	PondMAX NatureMAX 450g Dry	Up to 30,280

## CleanMAX

CleanMAX utilises the latest cutting edge technology to removes debris, add oxygen and clean the pond from top to bottom in seconds.

Code	Description	Treats (sq.m)
03PT023	PondMAX CleanMAX 900g Dry	Up to 8,600
03PT024	PondMAX CleanMAX 4.5kg Dry	Up to 172,000

## ClearMAX

ClearMAX is designed to clear cloudy, muddled pond water quickly, usually within 1-3 hours depending on the size of the pond. ClearMAX will quickly restore pond water to a brilliant shine.

Code	Description	Treats (L)
03PT062	PondMAX ClearMAX 470ml	Up to 30,230
03PT063	PondMAX ClearMAX 940ml	Up to 60,560

# Fish Treatments

SUPERIOR QUALITY IS ALL YOUR FISH DESERVE. TREAT THEM WITH THE BEST, MADE IN USA THE PONDMAX RANGE OF FISH TREATMENTS HAVE THE SPECIFIC APPLICATION FOR ALL YOUR FISH ILLNESSES.

## MediMAX

MediMAX is excellent for controlling gill diseases in pond and aquarium fish. Bacterial diseases generally result from fish stress due to adverse water quality conditions, habitat clean-outs, predators.

Code	Description	Treats (L)
03PT131	PondMAX MediMAX 236ml Dry	Up to 18,170

## SaltMAX

SaltMAX is formulated to increase koi and goldfish electrolytic intake. Electrolytes are critical in building and maintaining a healthy slime coat.

Code	Description	Treats (L)
03PT073	PondMAX SaltMAX 900g	Up to 1,500

## ParaMAX

ParaMAX is formulated for helping control Ick on pond fish. Treated correctly ParaMAX will remove ick, parasites, protozoa, bacteria and fungi from most fish species.

Code	Description	Treats (L)
03PT122	PondMAX ParaMAX 470ml	Up to 3,630

FISH **NEED** OXYGEN AND PLENTY OF IT! THE **MORE FISH** YOU HAVE THE **MORE OXYGEN** YOU WILL NEED TO **SUPPLY** TO YOUR POND.

SO NOW YOU KNOW...  
WHETHER YOU ARE A  
BEGINNER OR EXPERIENCED  
WATER GARDENER,  
WE HAVE IT COVERED.

CLEAN & CLEAR. SIMPLE.

**PondMAX**

WATERGARDENING TO THE MAX

**CLEAN AND CLEAR. SIMPLE.**
